DANIYAL ATTA

AI Researcher | NLP, LLMs & Machine Learning Optimization

Khanpur, Punjab, Pakistan | daniyal60480@gmail.com | +92 331 5218405

GitHub | *LinkedIn* | *Kaggle*

RESEARCH OBJECTIVE

AI/ML undergraduate (BS Artificial Intelligence, KFUEIT) seeking admission to a Master's program in AI/ML with a research focus on NLP, Large Language Models (LLMs), and AI reasoning systems. Experienced in applied ML through industry internships, 10 Kaggle competition medals, and independent research projects spanning multi-agent systems, RAG pipelines, and deep learning.

EDUCATION

BS, Artificial Intelligence | Khwaja Fareed University of Engineering & Information Technology (KFUEIT), Rahim Yar Khan, Pakistan*Feb 2022 – Jan 2026*

- CGPA: 3.24/4.00; ranked top of cohort by SGPA in 2nd semester
- Recipient, Prime Minister's Youth Laptop Scheme (merit-based national award)
- Relevant coursework: Machine Learning, Deep Learning, NLP, Computer Vision, AI Research Methodology

WORK EXPERIENCE

AI/ML Engineer | Codearck, Lahore, Pakistan *Jan 2026 – Aug 2026*

- Developed ML/DL models for classification, regression, and NLP tasks
- Performed data preprocessing, feature engineering, and model optimization
- Deployed models via Flask/FastAPI on AWS SageMaker and Azure ML

AI/ML Engineer (Part-time, Remote) | Shipd, Remote *Dec 2025 – Present*

- Participated in NLP, Computer Vision, and Seq2Seq AI challenges alongside full-time role
- Built and optimized models achieving strong leaderboard performance
- Developed RAG pipelines using vector databases and semantic search
- Applied XGBoost/LightGBM with feature engineering for tabular datasets

Machine Learning Engineer Intern | Codearck, Lahore, Pakistan *Jul 2025 – Oct 2025*

- Architected end-to-end ML pipelines: data ingestion, ETL, PostgreSQL storage, training, REST API inference
- Implemented MLflow for experiment tracking and model versioning, improving reproducibility by 60%
- Established CI/CD pipelines with GitHub Actions for automated testing and deployment
- Developed LLM/RAG applications using LangChain, FAISS, and Docker

ACADEMIC & RESEARCH PROJECTS

FakeGuard AI — Real-Time Fake Review Detection & Multilingual Sentiment Analysis *(Final Year Project / Undergraduate Thesis)* *(Jun 2025 – Dec 2025)*
Tech Stack: *Python, TensorFlow, Scikit-Learn, BERT, LSTM, SVM, Streamlit*

- Built a hybrid system combining ML, DL, and transformer models for sentiment analysis and fake review detection
- Designed NLP pipeline for sentiment extraction, aspect-based analysis, and real-time inference with confidence scoring
- Achieved 95%+ accuracy using an ensemble approach with explainable-AI output for transparent predictions
- Developed an interactive Streamlit dashboard for live analysis and model performance visualization
- Documented research methodology, architecture design, and performance benchmarking in a comprehensive thesis report

GitHub: https://github.com/DaniyalJutt/FakeGuard-AI

Autonomous Multi-Agent Agentic AI Research System *(Apr 2026 – Jun 2026)*
Tech Stack: *LangChain (LCEL), OpenAI, Tavily API*

- Built a multi-agent system (Search, Reader, Writer, Critic) for automated research workflows
- Orchestrated agent coordination and task execution using LangChain LCEL
- Implemented an RLHF-style critic loop with Tavily-based real-time information retrieval

GitHub: https://github.com/DaniyalJutt/Autonomous-Multi-Agent-Agentic-AI-Research-System

AI-Twin-X — Personalized AI Digital Twin Platform *(Jan 2026 – Jun 2026)*
Tech Stack: *Django, Django REST Framework, Groq API, ChromaDB, Sentence-Transformers, Coqui TTS, React, Twilio*

- Built an AI digital twin using Groq LLM for auto-replies on Instagram, WhatsApp, and Threads
- Integrated ChromaDB and sentence-transformers for long-term memory and RAG context retrieval
- Enabled real-time voice cloning using Coqui TTS to match the user's authentic voice
- Developed a centralized React dashboard to manage bots, active chats, and system settings

GitHub: https://github.com/DaniyalJutt/AI-Twin-X

AI/ML Kaggle Projects *(2022 – 2026)*
Tech Stack: *Python, TensorFlow, PyTorch, Scikit-Learn, XGBoost, LightGBM, BERT, LSTM, NLP, Computer Vision, BigQuery*

- Built 20+ ML/DL/NLP projects spanning text classification, computer vision, price prediction, and analytics dashboards
- Developed NLP models for sentiment analysis, AI-generated text detection, emotion and adversarial text classification
- Built regression/prediction models for crypto prices, BPM, term deposits, and sleep-disorder risk using XGBoost/LightGBM
- Designed analytics dashboards (Uber Rides, EPL Stats, GDP Analysis) with large-scale queries in BigQuery
- Achieved Kaggle Expert status with 10 medals across NLP, computer vision, and reasoning competitions

GitHub: https://github.com/DaniyalJutt/AI-ML-Kaggle-Projects

PDF-Brain: Intelligent Q&A with Gemma & Groq API *(Sep 2024 – Dec 2024)*
Tech Stack: *Python, LangChain, FAISS, Groq API, Gemma, Streamlit*

- Built a RAG-based document Q&A app that loads PDFs from a local folder and answers natural-language questions
- Implemented a chunking/embedding pipeline storing document vectors in FAISS for fast semantic retrieval
- Integrated Groq's inference engine with Gemma for low-latency, source-grounded answer generation with citation of exact chunks used

GitHub: https://github.com/DaniyalJutt/PDF-Brain-Intelligent-Q-A-with-Gemma-Groq-API

TECHNICAL SKILLS

Programming & Data: Python, SQL, JavaScript, C++, Java, Pandas, NumPy, PostgreSQL, MySQL, MongoDB
ML/DL & AI: PyTorch, TensorFlow, Scikit-Learn, XGBoost, LightGBM, CNN, LSTM, BERT, Transformers, LangChain, HuggingFace, RAG, Prompt Engineering, Multi-Agent Systems
Machine Learning Optimization: MLflow, Docker, CI/CD, GitHub Actions, Airflow, dbt, Databricks
Cloud: AWS (SageMaker), Microsoft Azure, GCP

CERTIFICATIONS

- AWS: SageMaker AI, Machine Learning Learning Plan | Microsoft Azure AI-900 – AI Fundamentals
- AMD: Quantization, GPU Optimization for LLM Inference, Triton Kernel Development, Finetuning R1 Reasoning Model on Unsloth
- Kaggle: Google AI Agent Intensive

RESEARCH ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

Research interests: NLP · Computer Vision · Generative AI & LLMs · AI for Healthcare · RLHF

- **Global Kaggle Expert Recognition (2022–2026):** Achieved the global 'Kaggle Expert' tier, earning 10 competitive medals across complex natural language processing (NLP), LLM reasoning, and computer vision benchmarks.
- **International Conference Participation (2024):** Actively participated in the International Conference on Emerging Trends in Artificial Intelligence and Cyber Security (May 15–17, 2024), engaging with cutting-edge academic advancements and the intersection of AI with security frameworks.

RECOMMENDATIONS

Letters of recommendation available on request from:

- Dr. Shahzad Hussain — Lecturer & AI Researcher, Institute of Computer Science, KFUEIT
- Dr. Muhammad Adeel Abid — Lecturer & FYP Supervisor, Dept. of Data Science & AI, KFUEIT

LANGUAGE SKILLS

Mother tongue: Urdu
English — Listening C1, Reading C1, Writing C1, Spoken Production B2, Spoken Interaction B2
